- Arneh held excellent review sessions before our exams in which I think I may have understood the material better than in our actual class, simply because he broke down the material in a more understandable way. He also was a good mediator when there was tension between Dr. McCammon and the class. All in all, I think Arneh was a very good addition to our class, and I would recommend he TA for SPPPS P Chem in the future.
- he's awesome. Summarizes lectures very adequately in review sessions and open to questions and very flexible with his schedule.
- Review sessions were extremely helpful, his explanations were a good supplement to the instructor's lecture. Problem sets were very similar to questions asked on homework and tests.
- Arnie did a good job at explaining concepts in this class. His reviews of the class were excellent.  
EXCELLENT TA, he made difficult concepts MUCH EASIER to understand.
- Review sessions were extremely helpful and productive.

- 6 Amazing TA! Arneh was the best TA we could have hoped for. His review sessions could not be missed and he really helped us to grasp a very difficult subject...fantastic!
- 7 He was essential to passing this course. His teaching method and review sessions were most helpful.
- 8 great TA
- 9 Truly a gifted person in his ability to teach and communicate the concepts to the students in a understandable language.
- 10 Arneh was an awesome TA. He scheduled review sessions and prepared review problem sets for us. He was willing to stay after the reviews until everyone had their questions answered. He was able to explain the lecture material in a way that was very easy to understand which was very helpful!
- 11 Great job!!!!
